MAHATMA GANDHI MISSION

MGM INSTITUTE OF HEALTH SCIENCES

(Deemed University u/s 3 of UGC Act, 1956)

ANNUAL REPORT
2016 - 2017

INSPIRING MINDS

Our Vision

By the year 2020, MGM Institute of Health Sciences aims to be a top-ranking Centre of Excellence in Medical Education and Research. Students graduating from the Institute will have all the required skills to deliver quality health care to all sections of the society with compassion and benevolence, without prejudice or discrimination, at an affordable cost. As a Research Centre it shall focus on finding better, safer and affordable ways of diagnosing, treating and preventing diseases. In doing so, it will maintain the highest ethical standards.

Our Mission

To improve the quality of life both at individual and community levels by imparting quality medical education to tomorrow's doctors and medical scientists and by advancing knowledge in all fields of health sciences through meaningful and ethical research.

Message from Shrikamalkishore Kadam, Hon'ble Chairman, MGM trust

MGM Institute of Health Sciences (MGMIHS), which was founded in August 2006, is today an innovation-driven premier health science university in our country. This year the University is celebrating its accomplishments during the last ten years and reflecting on the new goals for the coming years.

It is a matter of great pride and satisfaction for me that today MGMIHS exists to serve all through exemplary health care, education, and community service. Our commitment to excellence in education, research, patient care and community outreach programs is evidenced by Accreditation of MGMIHS by NAAC with Grade 'A'; accreditation of teaching hospitals and blood bank by NABH; and accreditation of diagnostic laboratories by NABL. MGM Medical College and Hospital, Navi Mumbai was adjudged the best medical institute in the western region of India by the Jury for LOKMAT National Education Leadership Award. The University has during the last ten years provided an excellent standard of education and training to thousands of students.

The accomplishments of the University are a reflection of the vision, commitment, hard work and dedication of the faculty, staff and students of the constituent Medical Colleges and University Departments. Collectively we will continue to endeavor to ensure that the Vision and Mission of the University is accomplished and the University is among the top ranking institutions not only in our country but globally. Kamal Kishore Kadam Chairman, MGM Trust

Shri Kamalkishore Kadam
Chairman, MGM Trust

**Message from Dr. P.M. Jadhav,
Hon'ble Vice Chairman, MGM trust**

MGMIHS is imparting knowledge commensurate with the policies of UGC for promotion of teaching and research at all levels of education. The Vision of MGMIHS is "to be the top ranking centre of excellence in medical education and research" by 2020. So, our effort remain to keep improving by checking self... what needs to be achieved and how? What are our aspirations for tomorrow and how that will become a reality?

We will define the goals and targets, and road map so that the Vision becomes a reality by 2020. In this endeavor, the MGM Trust will support and encourage the innovation and value addition by each member of the institution. I wish to support all the stakeholders of MGMIHS including heads of institutions in realization of their dreams.

Students graduating from MGM Institute will have all the required skills to deliver quality health care to all sections of the society with compassion and benevolence, without prejudice or discrimination and at an affordable cost.

MGM family focuses on Research to find better, safer and affordable ways of diagnosing, treating and preventing disease and while doing so maintaining the highest ethical standards. MGM Institute will emerge as pioneer institute and in this endeavour MGM Trust will play its vital role always.

Indeed, this annual report 2016-17 will showcase the achievement of MGMIHS in its 10 years journey since its inception in 2006.

Dr. P.M. Jadhav
Vice Chairman-MGM TRUST

Message from Dr. K. G. Narayankhedkar Hon'ble Chancellor, MGM Institute of Health Sciences

“Education is a human right with immense power to transform. On its foundation rests the corner stone of freedom, democracy and sustainable human development.” This statement of Kofi Annan, former Secretary-General of the United Nations is a clarion call for every country to place education amongst the foremost national priorities along with health care.

Our country, India, has been pursuing the vision of establishing world class institutions, higher education programmes, multi-skill development centres and schools to provide technology integrated quality education in both urban and rural areas. The private sector has played a key role in higher education in other countries across the world. Many top universities including Harvard, Yale and Stanford are the result of efforts of the private sector. Similarly, the MGM Trust has been contributing towards this national mission and providing opportunity to our youths to pursue their academic goals.

We, at MGMIHS, are committed to pursue excellence in education, research, clinical services and community outreach programmes. While we are proud of our achievements and recognitions, we have to continuously remind ourselves of our tryst with excellence.

This Annual Report summarizes achievements and also reminds us what need to be done. It has been rewarding for me to witness how MGMIHS and its constituent Colleges and University Departments have been achieving greater heights and striving for excellence. I appreciate the efforts of students, staff and the entire faculty towards the goal of making MGM Institute of Health sciences a World-Class University.

I, along with the trustees of MGM Trust, am very proud of the achievements highlighted in this report. We invite you to spend time in going through this Annual Report.

Dr. K. G. Narayankhedkar
Chancellor

Message from Dr.Sudhir N. Kadam
Hon'ble Vice Chancellor, MGM Institute of Health Sciences

Established in 2006, MGMIHS has completed 10 years of its inception. On its journey to excellence by acknowledgement of A Grade in NAAC within 10 years' of inception, I wish to convey my sincere regards to all our stakeholders. The Annual report 2016-17 reflects our commitment and promises delivered through high quality education, equipping students with the acumen to address both local and global challenges.

It worth mentioning that within the short span of its existence, the University has achieved remarkable success and continues to forge its future with new program initiatives: a modern curriculum, research endeavors, student engagement, professional training, faculty development, international collaborations, progress towards a state-of-the-art campus building, industry partnerships and much more. Making transformative impact on students, faculty, industry and society is the aim of these programs. As we look to the future one thing is certain – knowledge will be a key resource and will be highly sought-after within Navi Mumbai and around the world.

Our challenge is to help to generate ideas that will benefit society, and to educate and train people to work in fields where they will be valued both for their specialized knowledge, and for their ability to research, communicate and solve problems. To meet these challenges we need to build on the alliances and collaborative partnerships MGMIHS has established with business, government, and other research institutions. It is equally important we keep close to our wider communities of interest within Navi Mumbai and Bombay. This will help to ensure the ongoing relevance of our academic programmes and the continued excellence of our teaching, learning and research.

As Vice Chancellor, I am deeply committed to attracting a body of faculty and students dedicated to academic excellence, pedagogical sophistication, top-notch research, and service to society.

Dr. Sudhir N. Kadam
Vice Chancellor

Message from Dr. R. B. Goel Registrar, MGM Institute of Health Sciences

Annual report embarks the process an institution climbs the ladder of success. The Mgm institution brings its next annual report for the year 2016-2017.

As rightly quoted by Mahatma Gandhi, “what is really needed to make democracy function is not knowledge of facts but right education”

With contentment, I am welcoming you to MGM Institute of Health Sciences, which has grown triumphant over the years. MGM is committed to provide and ensure high quality of medical education.

MGM Institute has been identified as one of the most flamboyant institutes across the world. We offer majors in the bedrock disciplines of Medicine and Health care Sciences. We create opportunities for residencies and internships and experience that expand your portfolio and profile and broaden your horizons. Our award winning faculties are in many of the major names of the discipline across the globe, we have museums and established departments and cells that work to improve the quality of learning and the health care that is provided to the patients. They all bring out the best talents and the brightest minds in the art of medicine and health care world to our campus.

“The point is not to become a leader. The point is to become you and to use yourself completely.” The value and importance of the students for the Institute are ubiquitous and with these measures, they would be reminded of their responsibilities towards their institute, patients, their parents and society.

MGM is the unique mixture of vibrancy and accessibility that makes this institution a great place for students and not just rodomontade , and it's always a warm gesture MGM University prides itself on offering to everyone who joins and to join our community.

ACCOMPLISHMENTS OF MGMIHS

Accreditation and Awards

- MGMIHS accredited by National Assessment and Accreditation Council (NAAC), University Grants Commission with Grade 'A'.
- National Accreditation Board for Hospitals and Healthcare Providers accredited Blood Bank at the MGM Medical Hospitals.
- Accreditation of diagnostic laboratories by National Assessment Board of Laboratories (NABL).
- MGM Medical College and Hospital, Navi Mumbai adjudged the best medical institute in the Western Region of India by the Jury for LOKMAT National Education Leadership Award.
- MGMIHS adjudged the Best Deemed University by DNA, BBC Knowledge, and Star Group of Industries, 2017.
- MGMIHS approved for Indian Healthcare Excellence Award by Corporate Council for Leadership and Awareness, and Incredible India Foundation. (Award function on 13th May 2017).
- MGM Medical College, Aurangabad is ISO Certified and rated among the top 30 medical college in India in HT Survey 2016.
- MGMIHS has also received CCLA award for its excellence in Education.

International Collaboration

- University of Pennsylvania partnered with MGM Medical College and Hospital, Navi Mumbai and established MGM Sleep Medicine and Research Centre to help patients with sleep-related disorders and to pursue research.
- MGM Medical College and Hospital, Aurangabad and Kyungpook National University Medical Centre, Republic of Korea signed an MOU to promote collaboration in the fields of education, research and medical training.
- MGMIHS, University of Utah, USA and NanoSynth Materials and Sensors Inc. signed an MOU to develop point-of-care test for diagnosis of pulmonary tuberculosis. Council.
- Established UNESCO Chair in Bioethics Haifa with a primary aim to define and promote ethical practices in all academic activities, including teaching, evaluation, monitoring, research and clinical care.
- MGM Institute of Health Sciences Trust and AIDS Health Foundation, USA signed a MOU to curtail disease burden due to HIV/AIDS by promoting awareness about HIV/AIDS, early diagnostic and treatment.
- MGM Institute's University Department of Physiotherapy signed an MOU with University of Sydney, Australia to pursue research and capacity building in Physiotherapy.

Research Endeavours

- The Department of Scientific and Industrial Research (SIRO), Ministry of Science and Technology, Government of India has granted recognition and registration to MGMIHS to carry out research activities related to improvement of healthcare, indigenous technology promotion, development, utilization and transfer.
- Newsletter "MGM NEWS" launched during 2013 to disseminate information about the accomplishments of various Colleges, University Departments, Students and Faculty, and breakthroughs in academic activities.
- Publications in peer reviewed indexed scientific journals increased from 122 during 2013, to 244 during 2014, and to 314 during 2015.
- Five patents on research innovation filed during 2015-16 and all have been published.
- The number of Ph.D. research scholars registered with MGMIHS increased from 61 in 2012 to 152 during 2016. Twenty one Ph.D. scholars have been awarded degrees, including nine at the Sixth Convocation of the University held on 30th August 2016 at Aurangabad.
- MGMIHS started publishing quarterly a peer-reviewed scientific journal, MGM Journal of Medical Sciences, indexed in Copernicus with IC value of 83.47 for 2015, Google Scholar, EBSCO, Genomics and many more indexing and abstracting sources of international repute.
- MGM Institute's University Department of Physiotherapy established a Centre for Human Movement Science with support from International Society for Biomechanics and Bioengineering; and Technology Incubation Centre, IIT, Mumbai.
- MGM Institute's University Department of Physiotherapy; Department of Mechanical and Materials Engineering, Queen's University, Canada; and S.N.D.T. Women's University, Mumbai, India engaged in inter-disciplinary project on pelvimetry to gain an insight in birthing positions which can be used, an initiative sponsored by Natural Sciences and Engineering Research Council, and Shastri Indo-Canadian Institute.
- MGM Institute's University Department of Physiotherapy, Navi Mumbai and World Spine Care signed an MOU to offer evidence-based care of global merit to underserved people with spine problems, and to pursue research addressing to the spine care needs of local population.
- MGMIHS has jointly with MGM Dental College and Hospital started publishing a Journal of Contemporary Dentistry.
- To promote research and dissemination of information related to children MGMIHS, jointly with Pediatrics Association of India, has started publishing quarterly New Indian Journal of Pediatrics.
- MGMIHS has joined the Health Consortium operated by IIT Bombay as an

institute partner to foster inter-disciplinary health care innovation with its major contribution in human movement science.

Clinical Services

- Partnering with Government of Maharashtra in establishing a Trauma Center to provide services to victims of accidents on Mumbai-Pune Expressway.
- Establishing a De-Addiction Centre to provide medical and counseling support to addicts of alcohol, tobacco or banned substances to come out of addiction and lead normal healthy life.
- MCI approved starting of new postgraduate courses in Geriatrics, Immuno-haematology and Blood Transfusion, and Emergency Medicine. Students admitted in postgraduate medical courses have more than doubled in ten years.
- MGM Hospital is NABH Certified to provide advanced health care solutions like Robotic surgery.

Community Outreach Programmes

- MGM Hospital, Kamothe and Aurangabad empanelled for Rajeev Gandhi Jeevandayee Arogya Yojana to offer cashless comprehensive healthcare services, including major surgeries, to financially constraint population in entire Raigarh and Aurangabad district. The hospital awarded Grade 'A1' by NABH Accreditation Assessment for such services. Thousands of patients have availed specialized services in various departments.
- MGMIHS and its constituent Colleges and University Departments adopted villages; Ambelohal, Nanded, Tara, Ellora, Vardukazi; for overall development.
- Developed collaboration with UNFPA, IPAS, Rasayani, Shantivan, Sharan to maximise the outcome of outreach programmes.
- MGM Medical College adopted Municipal Hospital, Khopoli to provide specialised healthcare services to the people of Khopoli.
- MGM School of Physiotherapy during 2016 established MGM World Spine Care Centre to offer evidence-based sustainable spine care to underserved people.

Research at MGMIHS

MGMIHS was granted Deemed to be University Status during 2006-07, and during 2009-2010 the University had started admissions in the PhD Degree programme. Scientific Advisory Committees were constituted with eminent faculty members from various institutions both from inside and outside the University. Thrust areas of research were identified and state-of-the-art research facilities established. Since then a gradual increase in the publications has been

observed. Publications in peer reviewed indexed scientific journals increased from 107 during 2012-13, to 162 during 2013-14, 224 during 2014-15 and to 334 during 2015-16. During the current academic year the faculty has published 261 papers upto March 2017. Publications Year-wise (Academic Year, 1st July to 30th June) information about publications is given below:

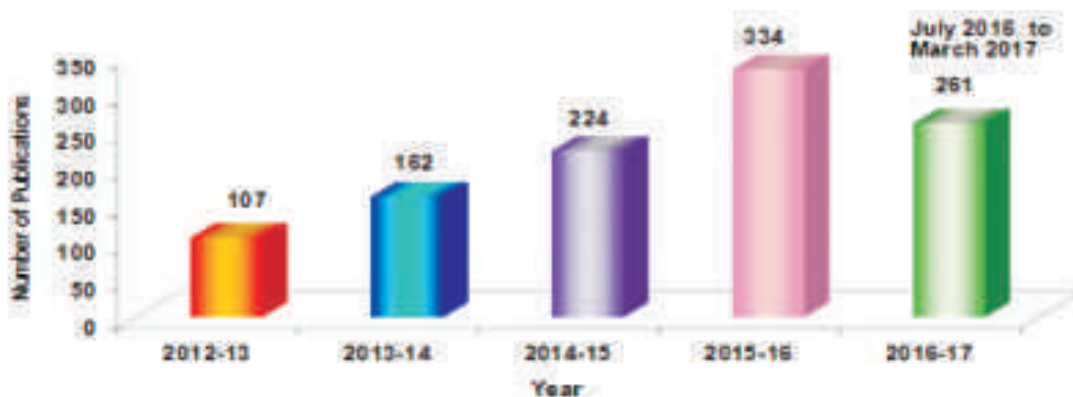

Figure: Publications of MGMIHS in indexed peer reviewed scientific journals.

The number of research papers published by ten major departments of Medical Colleges is given in the figure below. Faculty of the Department of Pathology had published 113 research papers since 2012-13. The data also suggest that each department has on an average published atleast five research papers every year thereby further suggesting that most of the faculty members are actively engaged in research.

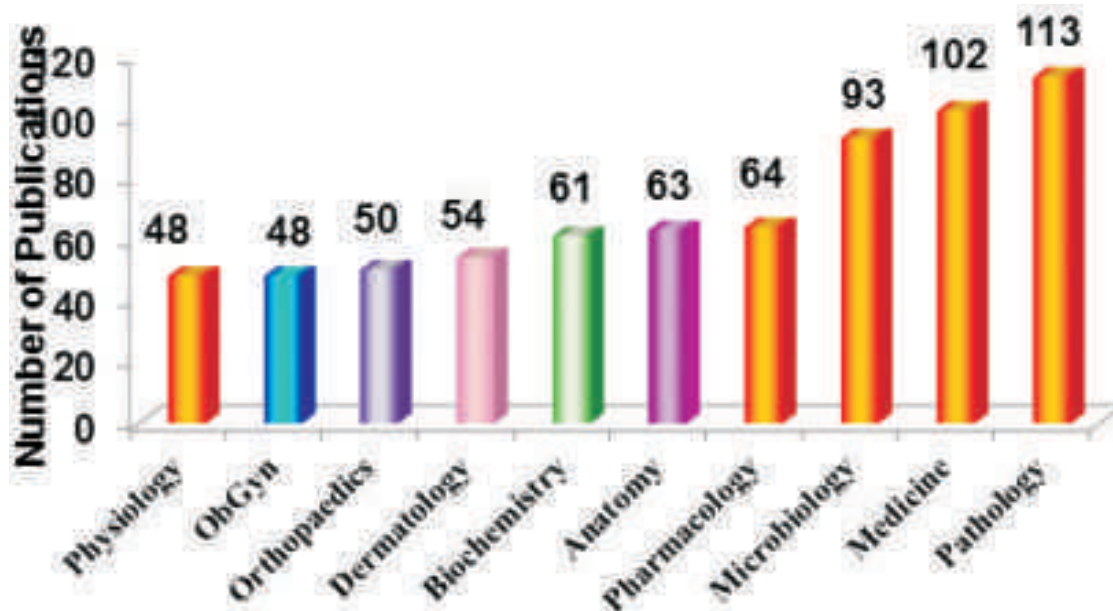

Figure: Publications of ten Departments of MGMIHS in indexed peer reviewed scientific journals from 2012-2017. Faculty members from the Department of Pathology had published the highest number of papers (113). This data also reflects that a large number of faculty members from different departments are engaged in research.

Most of the faculty members have been engaged in research and have published original research paper in peer reviewed indexed journals. Department of Pathology had published the maximum number of papers (113) during five years. About 94% of Professors and 89% of Associates Professors in various Departments of MGM Medical Colleges had published at least one research paper.

In addition, the analysis of published data shows that most of the faculty members have been engaged in research and have published original research paper in peer reviewed indexed journals. The Figure below reflects the number of publications of ten departments and suggests that each department had published at least ten research papers each year. Department of Pathology had published the maximum number of papers (113) during five years. In addition, 93.7% of Professors and 89.5% of all Associate Professors have published research paper(s).

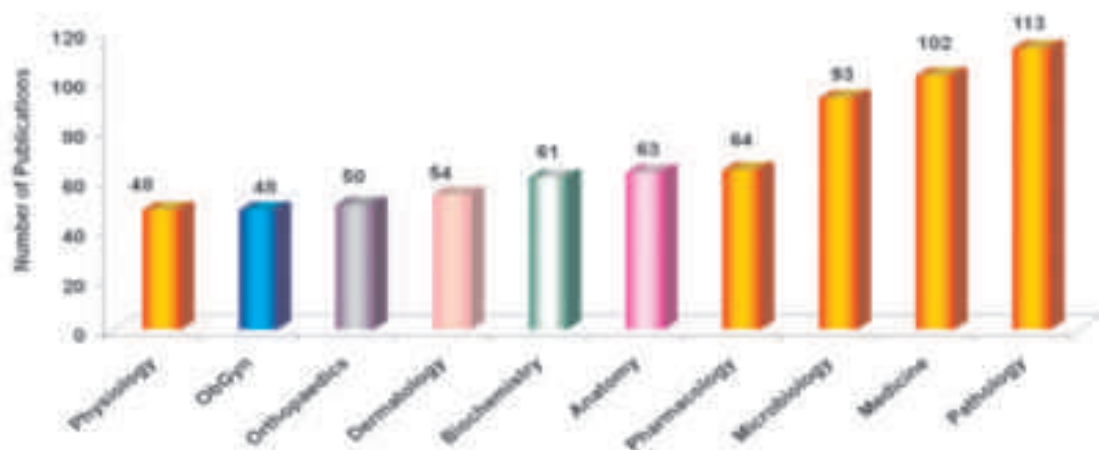

Figure: Departments of MGM Medical Colleges with maximum number of publications during last five years

The 1088 publications, which were published over five years is in indexed peer reviewed journals. The average impact factor of the journals in which papers were published during 2012-13 was 1.02 and during 2016-17 it had increased appreciably to 3.06 ((Thomson Reuters Database) reflecting increasing acceptance of research by journals of repute.

Figure: Average Impact Factor of the Journals in which research papers were published since 2012-13.

It may be mentioned again that UGC had granted Deemed to be University status to MGMIHS during 2006-7 and it was during 2009 the University had started research programmes and enrollment in PhD degree programme. With in a short span of six years the University faculty has published 1088 research papers in indexed peer reviewed journals. Most significant has been the gradual increase in publications and quality of journals, as reflected by the average impact factor, in which research was published.

Improvement in the quality of research is further reflected by the gradual improvement in h-index from Scopus for the assessment years 2012 to 2017 as shown in the figure below.

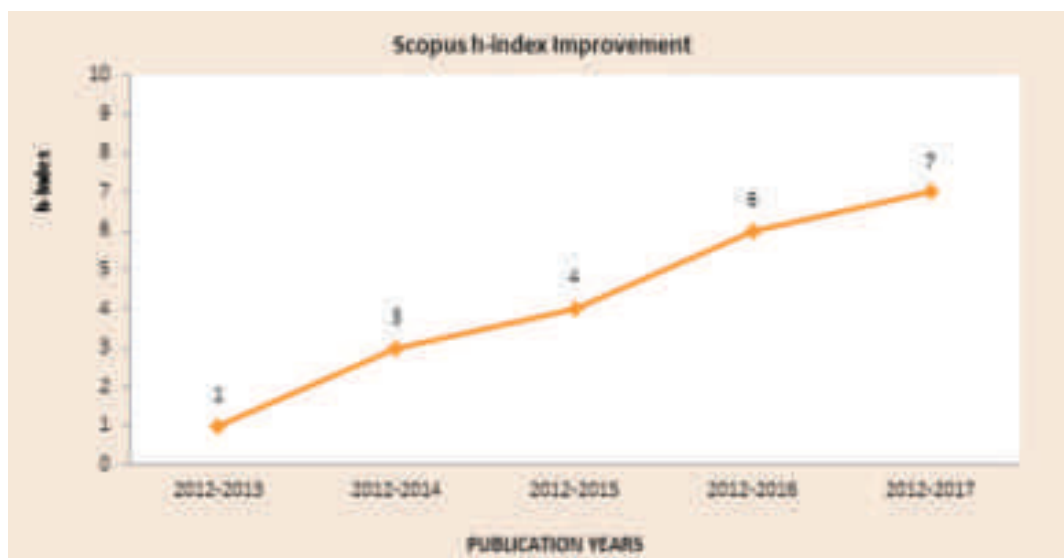

Figure: Improvement in Scopus h-index for MGMIHS publications from 2012 to 2017. (Data was independently analysed by E-Merge Tech Global Services Pvt Ltd, Chennai, India)

As reflected in the Figure below, h-index for 168 publications with 222 citations was seven.

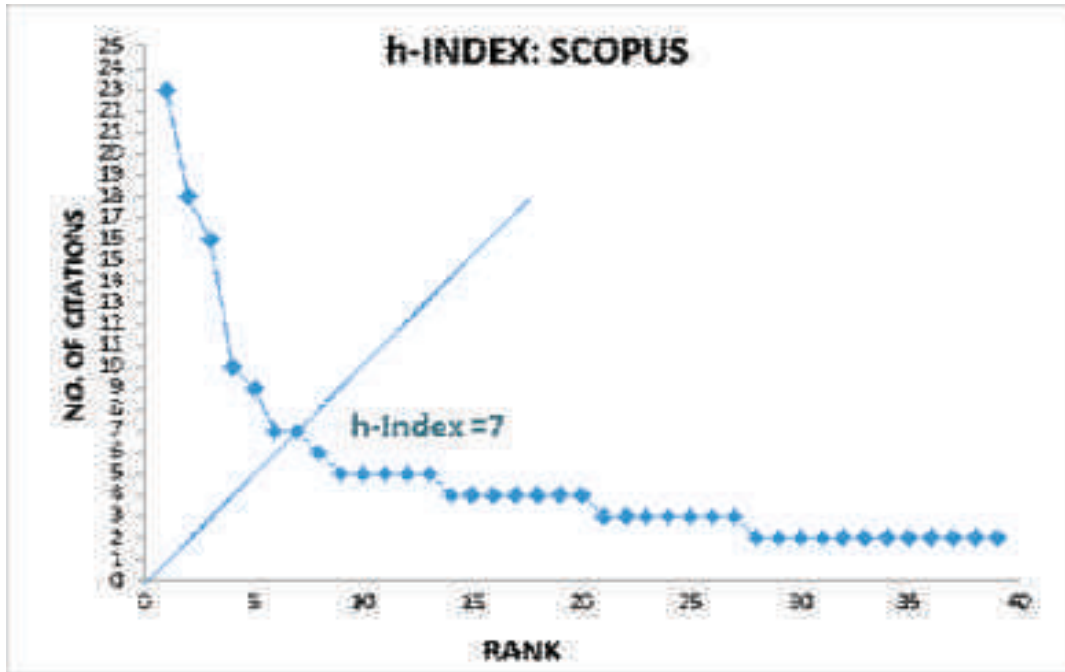

Figure: h-index (Scopus) of publications for which citation index was available. (Data was independently analysed by E-Merge Tech Global Services Pvt Ltd, Chennai, India)

H-index of publications of faculty members was worked out considering their publications and total number of citations (Scopus). Dr Ipseeta Ray, having 10 publications with 27 citations, had highest h-index value of 3.

Citation index of all faculty members (individual) for the last five years

As shown in the figure below, a steady increase in the overall citation index of the publications of faculty members was observed. The average citation index which was 1 during 2012 increased to 5.33 over five years.

Figure: Improvement in average citation index of all faculty for MGMIHS publications from 2012 to March 2017 (Data independently analysed by E-Merge Tech Global Services Pvt Lth, Chennai, India)

The overall citation index of some of the faculty members for assessment year 2012 is given in the following table:

Number of papers of individual faculty with first authorship/ corresponding author/or last author of Faculties for the last 5 years.

Publications of senior faculty members from 13 departments of medical colleges is shown in the table below. The analysis shows that senior faculty members (mainly HODs) had given themselves first authorship only in 11% of the publications thereby encouraging their younger colleagues, particularly PhD Research Scholars and Research Fellows, to pursue research.

Research publications of some senior faculty members (most HOD's) with first authorship, corresponding author or last author, since 2012-13.

Number of Patents awarded/filed with their details

MGMIHS had filled five patents during the last two years and all have been published, as detailed below:

1. Title of the invention: Preparation comprising a pancreatic lipase inhibitory fraction an antiobesity principle obtained from dietary spice *Mesua ferrea* (Application No.1949/MUM/ 2015 A, Publication Date: 05/06/2015). Applicant: MGM Institute of Health Sciences. Inventors: Raman Prasad Yadav, Sudhirchandra Nanasaheb Kadam, Sveeta Vishnu Mhatre and Amita Anant Bhagit.
2. Title of the invention: Method for the synthesis of bifunctional cerium oxide nanoparticle with enhanced antioxidant and carbonic anhydrase inhibitory activity (Application No.1948/ MUM/2015A, Publication Date: 05/06/2015). Applicant: MGM Institute of Health Sciences. Inventors: Raman Prasad Yadav, Sudhirchandra Nanasaheb Kadam, Amita Anant.
3. Title of the invention: Biogenic method for generation of monodisperse and fluorescent cerium oxide nanoparticles with enhanced antioxidant activity (Application No.2685/MUM/2015A, Publication Date: 31/07/2015). Applicant: MGM Institute of Health Sciences Inventors: Raman Prasad Yadav, Sudhirchandra Nanasaheb Kadam, Amita Anant Bhagit and Sveeta Vishnu Mhatre.
4. Title of the invention: Biogenic method for generation of multiple nanoparticles (Zn, Fe, Mg, Ca, Ce, Si, Ag) - Application No.3616/MUM/2015A. Publication Date: 09/10/2015. Applicant: MGM Institute of Health Sciences. Inventors: Raman Prasad Yadav, Sudhirchandra Nanasaheb Kadam, Amita Anant Bhagit and Sveeta Vishnu Mhatre.
5. Title of the invention: A micro-trench based Biochip Device for screening of Infectious diseases using Gold Nanoparticles/Nano-coating. Application No. 3620/MUM/ 2015. Publication Date: 5.2.2016. Inventors: Suri, V. K. (BARC), Balasubramaniam, R. (BARC), Mishra, Shivam (BARC), Ghildiyal, Shrinkhla (BARC), Joshi, D.S. (MGMIHS), Thakur, Mansee (MGMIHS), Pai, Girish (MGMIHS), Bhand, Sunil (BITS, GOA), Pal, Souvik (BITS,GOA).

Research facilities available

Both basic facilities and advanced instruments are available with MGMIHS for research purpose which are operated and maintained by a dedicated group of researchers. Scientists and doctors at the MGMIHS work together for development of both prevention and treatment options which is critically relevant to human diseases. Advanced technology and other state-of-the-art centre of

excellence allow researchers to solve problem based disease processes. Knowledge generated in the various laboratory aids in the patient care, development of drugs, diagnostics, and other medical products designed to improve health outcomes for patients. □ Some important instruments which are dedicated to research such as Spectrofluorophotometer, amino acid analyser, UV-Vis Spectrophotometer, ELISA Reader, HPLC, Fume Hood, Laminar Air flow, Biosafety Cabinet, CO₂ Incubator, Thermal cyclers, RT-PCR, Gel Electrophoresis instruments, different range of microscopy, material storage system etc. and other large number of basic and small supportive instruments.

MGMIHS research centre is well equipped and powered by various facilities availability of microbial culture facility, Protein identification and purification facility, enzyme isolation and characterization facility, biogenic facility for synthesis of metallic nanoparticles, zebra fish facility etc. All the research facilities are spacious and supported by various infrastructure facilities present in MGMIHS campus such as workshop facility, water & electricity, power generator, AC Room or AC, telecommunication including e-mail & fax, transportation, Information facilities like internet/ library, computational facilities, Animal House, administrative/ secretarial support etc.

Number of Ph.D. degrees awarded during the last three years

Twenty-one students have so far been awarded PhD Degree of MGMIHS, of which 18 were awarded during the last three years (during 2014, 2015 and 2016). In addition, 16 students are likely to be awarded PhD degree during the 7th Convocation of MGMIHS, to be held during June-July 2017

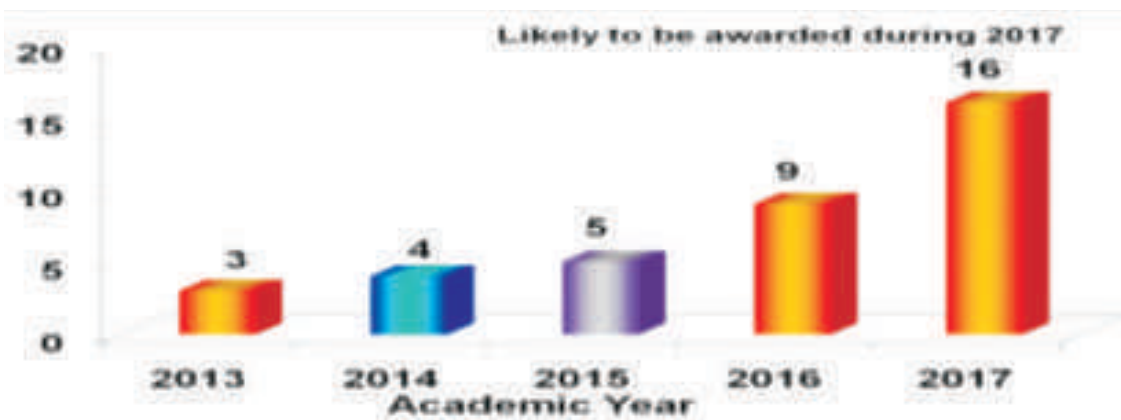

Figure: PhD degrees awarded during last four convocations and likely to be awarded at 2017 (7th) Convocation of MGMIHS.

**MGM MEDICAL
COLLEGE,
NAVI MUMBAI**

Message from Dean's Desk:

I have great pleasure to submit the annual Report of Mahatma Gandhi Mission's Medical College, Kamothe, Navi Mumbai. Our College is established in Aug. 1989. This is one of the best teaching and research institution in Maharashtra State recognized/ permitted by the Medical Council of India for undergraduate and various post graduate degree , diploma & superspecialty courses. This College is a constituent unit of MGM Institute of Health Sciences, Deemed to be University u/s. 3 of UGC Act 1956) which has got accreditation of NAAC - "A" Grade from the year 2014 .

Our strength lies in a team of highly qualified and experienced dedicated, skilled faculty, supported by an equally dedicated Non teaching , paramedical and Nursing staff and Residents with excellent infrastructure facilities, Library, Museums, Central Research Laboratory (SIRO's Approved) State of Art laboratory for serology, molecular biology, immunology and tissue culture , Central Diagnostic Laboratory (NABL Accredited) & Blood Bank & Components (NABH Accredited). MGM Medical College Hospital is accredited by NABH "A+" for our MJPJ Arogya Yojana . The Hospital is treating patients on charity basis which is benefit to the patient care. MGM Medical College & Hospital has been an approved Centre for MDR TB under Govt. of Maharashtra PPT Model MOU with State/District TB Officer. We have a value added Skilled Lab with all facilities for training for Basic Life Support, Advanced Cardiac Life Support approved by American Heart Association on International Training Agreement. The UG, PG students, Para Medical ,Nursing staff working in Medical College & Hospital are given training in ALS, BLS, ATLS.

Medical Educational Unit is organizing workshops with MCI approval and most of the teachers are trained in MET. Medical College has established IQAC(internal Quality Assurance Cell) which actively assess the faculty appraisal system and students feed back system. Medical College is having an attached tertiary care 840 bedded hospital and 100 Beds for Intensive Care facilities, Trauma, all specialty & superspecialty including Emergency Services, Endoscopy, , Modular Operation Theatres , Cath Lab, Lithotripsy & Renal Transplant and functional Sleep Laboratory . The Hospital is well equipped with modern equipments / instruments and qualified Consultant for the quality patient care with human touch.

The faculties & Residents are organized National and International Conferences, CMEs/ Workshops with Eminent Faculty as Speakers from national and international level with accredited credit hours from Maharashtra Medical

Council, Mumbai. Also CME's on web streams are regularly organized. The faculties and residents are presenting research papers, poster presentation etc. regularly in State, Regional, National & International Conferences. The faculties, Residents are published papers in various indexed journals in National and International level and won various awards. Our UG students are also done short term research projects approved by ICMR & DST.

The College has active Urban & Rural Health Centres attached to it. Besides these academic activities, our Outreach Programmes hold medical camps in the rural areas serving the poor and weaker sections of the society. Also Govt approved NRHM camps are organized. Our Medical College & Hospital is running specialty OPD & Lab services at Khopoli Municipal Hospital on daily basis which increased the clinical material for the training UG & PG students and research and also we are starting OPD, OT services at Rural Hospital Chowk and Karjat under MOU with Civil Surgeon Alibaug.

We assure you the world class excellence in education and health care services at this esteemed institute. In the future plans fully equipped "Trauma Centre" & Oncology is in pipeline. The college plans to starts super specialty courses in, Neurology, Neurosurgery Oncology. The Medical College Hospital is going for NABH accreditation in the coming year.

PG STUDENTS RESEARCH PROJECTS

(MD/MS BATCH 2014-15)

Sr. No.	Thesis Topic	Department	Name of Researcher	PG Teacher/ Guide	Ongoing/ Completed
1	Analysis of deferred donors at MGM Kamothe Blood Bank	Immuno Haematology & Blood Transfusion	Ruhi Ajit Mehra	Dr. U. Maheshwari	Completed
2	A Comparison of Ropivacaine 0.5% and Levobupivacaine 0.5% In Axillary Brachial Plexus Block For Upper Limb Surgeries.	Anaesthesiology	Arjun Pratap Joshi	Dr. R. L. Gogna.	Completed
3	A Study to Evaluate the Success rate, Venous access time and complication of Internal Jugular Vein Cannulation Using Anatomical Landmark Technique.	Anaesthesiology	Hemesh Shewale	Dr. Latita Tuteja	Completed
4	Randomised, Prospective Study Of Single Dose Epidural 0.125% Levobupivacaine and Single Dose Epidural 0.2% Ropivacaine for Post Operative Analgesia In Patients Undergoing Elective Lower Limb Orthopaedic Surgeries.	Anaesthesiology	Divya Madaan	Dr. Olvyna D'souza.	Completed
5	Study of Post Operative Analgesia with Clonidine as an Adjuvant to Bupivacaine in Transversus Abdominis Plane (TAP) Block for Lower Abdominal Surgeries.	Anaesthesiology	Tauqeer Anjum Mir	Dr. Swati Dhiware.	Completed
6	To Compare The Efficacy of Combined GA-Epidural anaesthesia With GA Alone to Attenuate Hemodynamic Responses and Perioperative Analgesia In Laparoscopic Cholecystectomy Patients.	Anaesthesiology	SuganPreet Kaur	Dr. Shilpa Bhide.	Completed
7	Effect of Oral Clonidine Premedication on Perioperative Hemodyamic Response And Post Operative Analgesic Requirement for Patients Undergoing Laproscopic Surgery.	Anaesthesiology	Rohan Roshan Nayak	Dr. Jessy E. Vennel.	Completed
8	A CT Based Comparative and Morphometric study of the Osteomeatal Complex and the maxillary sinus in normal and Chronic Rhino-Sinusitis Patients	Anatomy	Vaishali Manoj Dhamne	Dr. Anjali Sabnis.	Completed
9	Effect of Hemodialysis on Biochemical Parameters in Chronic Kidney disease	Biochemistry	Priyanka Braj Bhushan Rao	Dr.A.D.Deepak	Completed
10	A study to Assess the Bacteriological Quality of Drinking water, Water Source Sanitation & water related practices in Village Kalhe of District Raigad	Comm. Medicine	Ashlesha Tawde	Dr. Seema Anjenanya	Completed
11	A Study of Birth Preparedness and Complication Readiness in Antenatal and Postnatal Women in A Rural Area.	Comm. Medicine	Asima Bhaumik	Dr. Rajesh Goel	Completed
12	Analysis of The Dermoscopic Criteria For The Diagnosis of Patients With Plaque Psoriasis, Lichen Planus, Pityriasis Rosea And Lichen Simplex Chronicus Based Upon Histopathological findings.	Dermatology	Jayti Bharat Kansaria	Dr. Satish Udare.	Completed
13	To Evaluate and Study Contact Dermatitis To Hairdye Ingredients.	Dermatology	Sneha Patil	Dr. Hemangi Jarajani.	Completed

14	Evaluation of Fibrinolysis with Streptokinase In ST - Elevation Myocardial Infarction .	Emergency Medicine	Abhishek Chaudhary	Dr. Khatija Jumkhawala.	Completed
15	A Study of Clinical & Radiological Profile in Patients With Spontaneous Intracerebral Haemorrhage With Risk Factor Assessment Presented In Emergency Department.	Emergency Medicine	Khizar Ahmed	Dr. Deepali Rajpal.	Completed
16	Masses of Nasal Cavity, Paranasal Sinuses and Nasopharynx - A Clinicopathological Study.	ENT	Cassandra Anna Carvalho	Dr. Kalpana Rajiv Kumar	Completed
17	Effectiveness of Functional Endoscopic Sinus Surgery In Treatment of Adult Chronic Rhinosinusitis Refractory to Medical Management.	ENT	Rachana Chowdary Gaddipati	Dr. Suman Rao	Completed
18	Clinical Study Of Microvascular Complications In Newly Diagnosed Diabetes Mellitus.	General Medicine	Tasneem Bharmal	Dr. Sandeep Rai.	Completed
19	Study Of Peripheral Arterial Disease In Type 2 Diabetics Using Ankle Brachial Index and Colour Doppler Ultrasound and An Overview of The Orevalence and The Clinical Profile of Peripheral Arterial Disease.	General Medicine	Kunal Rajesh Bhuta	Dr. Sandeep Rai.	Completed
20	Study of Clinical, Bacteriological Profile and the Efficacy of Antibiotics in the treatment of Spontaneous Bacterial Peritonitis (SBP) and its Variants in Cases of Liver Cirrhosis.	General Medicine	Rohan Vijay Yewale	Dr. Jaishree Ghanekar.	Completed
21	A study of the clinical profile of Acute kidney injury	General Medicine	Naga P Garapati	Dr. Amrit Kejriwal	Completed
22	Study of Etiological and Clinical Profile of Patients with AF.	General Medicine	Rishabh Naik	Dr. Mitesh Thakkar.	Completed
23	A Study of Hypertension in Chronic Alcoholics.	General Medicine	Atul.S. Rai	Dr. Babita Ghodke.	Completed
24	A study of Complications of Plasmodium Vivax Malaria.	General Medicine	Hiteshbhai Jagmalbhai Desai	Dr. Amrit Kejriwal.	Completed
25	Serum Iron studies & Epo levels in patients of Type 2 Diabetes Mellitus	General Medicine	Karandeep Singh	Dr. Amrit Kejriwal.	Completed
26	Clinical Profile of Survival of Patients on Hemodialysis.	General Medicine	Sujit Kumar Shahi	Dr. Jaishree Ghanekar.	Completed
27	An Evaluate study of diffusing lung study in Young Adult Age 16 -28 Years	Respiratory Medicine	Shubham Dwivedi	Dr. P. V. Potdar	Completed
28	The Impact of POSSUM Score On Outcome of Patients With Gastrointestinal Surgeries.	General Surgery	Avdhut Chandrashekhar Gandhi	Dr. Prashant Athale.	Completed
29	Quality of life and outcome with ureteral stents vs withoutb stents following ureterorenoscopy : A randomized controlled study	General Surgery	Vibhushit Sharma	Dr. S. Pani.	Completed
30	Clinical Pattern Evaluation and Outcome of Abdominal Organ In Blunt Abdominal Trauma Patients At MGM Hospital.	General Surgery	Swapna Shah	Dr. Kundan Gedam.	Completed
31	Study of head injury and it's outcome in relation to the glass gow coma scale	General Surgery	Arun Rajesh Singh	Dr. G. S. Narshetty.	Completed
32	To Evaluate The Incidence of Silent Gall Stone Requiring Surgical Intervention.	General Surgery	Ankit Vivek Potdar	Dr. Ashok Kalyanshetti.	Completed
33	Gastro - Intestinal Perforation - A Clinical Study.	General Surgery	Gayatri Prakash Tahiliani	Dr. Ali Reza.	Completed

34	A study of cognitive dysfunction in elderly and its relation with Co-Morbidities	Geriatrics	Priyanka Ranapatgiri	Dr. T. K. Biswas	Completed
35	A study of Pleural Effusion in Elderly	Geriatrics	Sucheeth Avanti	Dr. T. K. Biswas	Completed
36	Evaluation of effect of Vitamin D supplementation on Vitamin D levels & pregnancy outcome	OBGY	Siddharth Nitinbhai Shah	Dr. Shaifali Patil.	Completed
37	Role of platelet count as an Indicator in Determining the Severity of Pregnancy Induced Hypertension.	OBGY	Nimisha Srivastava	Dr. B. G. Boricha.	Completed
38	Role of Hysteroscopy in Evaluation of Abnormal Uterine Bleeding And ITS Histopathological Correlation.	OBGY	Swapna Sunil Kadam	Dr. Sabrina Mhapankar.	Completed
39	Progesterone Versus HCG Efficacy in Threatened Abortion.	OBGY	Priyanka Tiwari	Dr. Pankaj Patil.	Completed
40	Comparative Study Between Pap Smear and Visual Inspection with Aceticacid(VIA) as Screening Tests for Premalignant and Malignant Lesions of Cervix.	OBGY	Sindhura Nandipati	Dr. Archana Chatterjee.	Completed
41	Nifedipine Vs Isosuxprine in Preterm Labour: A Comparative study.	OBGY	Diksha Babu Poojary	Dr. Jayshree Narshetty.	Completed
42	Normative Data For Automated Perimetry In Indian Population.	Ophthalmology	Neeraj Ashok Israni	Dr. Naheed Abidi.	Completed
43	Optical Coherence Tomography Analysis of Clinically Significant Macular Edema Before and After Intravitreal Injection of Bevacizumab (Avastin).	Ophthalmology	Prachi Shah	Dr. Shrikant Despande.	Completed
44	Comparison of Fibrin Glue and Autologous blood for Conjunctival Auto Graft Fixation in Pterygium.	Ophthalmology	Priyanka Umesh Patkar	Dr. Saurabh Shrivastava.	Completed
45	Prospective Study of Functional Outcome of Total Knee Replacement In Osteoarthritic Knee	Orthopaedics	Sunil Rajendra Kumar	Dr. Sarabjeet Singh Kohli.	Completed
46	Comparative Study of Dynamic HIP Screw and Proximal Femoral Nail in The Management of Intertrochanteric Femoral Fractures.	Orthopaedics	Vicky Tekchand Jain	Dr. Alfven Vieira.	Completed
47	Evaluation of Functional Results in Different Modalities of Treatment in Extra - Articular Fracture of Distal end Radius.	Orthopaedics	Rahul Prabhakar Vanjari	Dr. Alfven Vieira.	Completed
48	Outcome Of Cemented Hemiarthroplasty and Cemented Total HIP replacement for active elderly asteoprotic patients with dispalced femoral neck fractures.	Orthopaedics	Siddhant Jain	Dr. K. R. Salgotra.	Completed
49	Assessment of f Different Modes of Treatment of Fractures of Tibial Plateau.	Orthopaedics	Prashant Ganpatrao Dumbre	Dr. K. R. Salgotra.	Completed
50	Prospective Study of Functional Outcome of Total HIP Replacement in Arthritic HIP.	Orthopaedics	Pankaj Bansal	Dr. Vinod J. Laheri.	Completed
51	Study of Clinical Profile of Meningitis in Children & Efficacy of CSF Latex Agglutination Test in Bacterial Meningitis.	Paediatrics	Nancy Goel	Dr. N. N. Kadam.	Completed
52	To Study ofthe clinical spectrum of Malaria in children of suburban population	Paediatrics	Ankita Pandey	Dr. Jeetendra Gavhane.	Completed

53	Study of Investigating Contact Children of Person with Infective Tuberculosis.	Paediatrics	Ragi Rami Rajan	Dr. Vijay Kamale.	Completed
54	To Study Clinical Profile, Aetiological Spectrum and Optimum Management Strategy For Constipation in Children.	Paediatrics	Rishabh Dutt Gautam	Dr. Nimain Mohanty.	Completed

**Ongoing Research Projects MD/MS
(Approved by Institutional Ethical Committee)**

(MD/MS BATCH 2015-16)

Sr. No.	Thesis Topic	Department	Name of Researcher	PG Teacher/ Guide	Ongoing/Completed
1	Study of HRCT & its correlation with pulmonary function tests in patients with chronic respiratory complaints	Radiodiagnosis	Dr. Parthavi Ashokbhai Patel	Dr. Priti Kapoor	Ongoing
2	Role of ultrasound in 11-13 weeks of Pregnancy In detecting chromosomal & structural anomalies	Radiodiagnosis	Dr. Prabhodini Narasimha Rao Manchala	Dr. Ashutosh Chitnis	Ongoing
3	Evaluation of life support & therapeutic lines in intensive care unit patients using chest radiograph	Radiodiagnosis	Dr. Shrishti Thakur	Dr. Ashutosh Chitnis	Ongoing
4	Radiographic & MRI evaluation of adult chronic HIP pain in adults	Radiodiagnosis	Dr. Priyanka Verma	Dr. Abhay Gursale	Ongoing
5	A Comparative study of mamography & sonomamography with histopathology in evaluating palpable breast masses	Radiodiagnosis	Dr. Iffat Afzal Hussain	Dr. Abhay Gursale	Ongoing
6	Study the functional outcom of prolapsed intervertebral disc treated with discectomy	Orthopaedics	Dr. Parth Shailendra Gupta	Dr. Alfven Vieira	Ongoing
7	A prospective study of management of subtrochanteric femur fracture using proximal femoral nail	Orthopaedics	Dr. Shwetabh Malik	Dr. Alfven Vieira	Ongoing
8	Comparitive study of patellar resurecingover non resurfacing in total knee replacement	Orthopaedics	Dr. Abhishek Gupta	Dr. Rahul Kadam	Ongoing
9	A study of functional outcome following proximal humeral locking compression plating (LCP) for proximal humeral fractures	Orthopaedics	Dr. Abhijeet Yadav	Dr. K. R. Salgotra	Ongoing
10	Proseptive study of open fractures of tibia using unreamed interlocking nail	Orthopaedics	Ritesh Subhash Sawant	Dr. K. R. Salgotra	Ongoing
11	Study of management of diaphyseal fracture shaft femur by intramedullary interlocking nail	Orthopaedics	Dr. Ayush Anoop Kumar Tiwari	Dr. Sarbjeet Kohli	Ongoing
12	Significance of patch testing in patients with hand eczema	Dermatology	Dr. Sayalee Nitin Mhatre	Dr. Satish Udare	Ongoing
13	Efficacy of Autologous Platelet plasma rich therapy for the management of chronic lower Limb Ulcers	Dermatology	Dr. Vandana Om Prakash Verma	Dr. H. R. Jerajani	Ongoing
14	Comparative study of low dose vaginal Misoprostol and Dinoprostone gel for labour induction	OBGY	Dr. Shivali Tripathi	Dr. Shaifali Patil	Ongoing
15	Evaluating the quality of care for severe pregnancy complications. The near-miss approach for maternal health	OBGY	Dr. Jyoti Angad Singh	Dr. Jayshree Narshetty	Ongoing
16	To Compare the efficacy of tab. Misoprostol 600 MCG (PR) with inj. Methylergometrine 0.2 MG (IM) the prevention of post partum haemorrhage	OBGY	Dr. Saurabh Harishchandra Shetty	Dr. Sabrina Mhapankar	Ongoing

17	Role of prophylactic injectable antibiotics v/s oral antibiotics v/s no antibiotics in episiotomy care	OBGY	Dr. Arina Chandrababu	Dr. Sushil Kumar	Ongoing
18	Comparison of low dose mg so4 regime for eclampsia & severe pre-eclampsia with standard pritchard's regime	OBGY	Dr. Disha Bhojwani	Dr. Sushil Kumar	Ongoing
19	Study of hypothyroidism in pregnancy	OBGY	Dr. Anup Kapse	Dr. Archana Chaterijee	Ongoing
20	Correaltion of Diabetic Retionopathy with Ischemic Heart Disease in Type 2 Diabetes	General Medicine	Dr. Saurabh Satishkumar Goel	Dr. Sandeep Rai	Ongoing
21	Prevalence of anaemia in STEMI	General Medicine	Dr. Arpan Singh Chouhan	Dr. Amrit Kejriwal	Ongoing
22	Study of incidence and etiological factors of hyponateremia in critically III patients	General Medicine	Dr. Bilal Bashir Pathan	Dr. Sandeep Rai	Ongoing

**MGM MEDICAL
COLLEGE,
AURANGABAD**

Medical Director's Message:

Prof. Dr. A.G. Shroff with a huge experience of 35 years in academics and administration is the present Medical Director of this Medical College. He worked on various prestigious posts like Dean Faculty of Medicine of Dr. Babasaheb Ambedkar Marathwada University. He was eminent Professor and Head of department of Anatomy at Govt. Medical College Aurangabad. He was also Dean of Govt. Medical College Aurangabad. He joined this institution as a Dean on March 2006. He took this institution to new heights of success. During his tenure new PG Courses in 18 departments were started which was only four earlier, Super Speciality Course in Plastic Surgery was also started and the intake capacity of MBBS Course was also increased from 100 to 150 students per year.

The MGM Medical College started in 1990. Since then the growth of this college has never stopped. This college now has a very spacious well ventilated and high tech building for Medical College and Hospital in separate blocks. The facilities for the students like class rooms, demonstration room, Practical labs, Research labs and library etc. are well equipped with latest available material, instruments equipments, books and journals.

The Medical College has a high tech tertiary care hospital. This hospital has all the required facilities for patients. This caters to all the cadets of the society. The hospital has well equipped spacious ventilated wards high tech operation theatre complex with a support of 24 hours working central pathology lab, high tech radiology department etc. This hospital is providing basic medical care to super speciality care like plastic surgery, nephrology, urology, cardiology and cardiovascular thoracic surgery and specialized neuro surgery department. This hospital has facility for kidney transplant, advanced endoscopy and laparoscopic surgery.

Dr. A. G. Shroff
 Medical Director,
 MGM Medical College
 Aurangabad

Dean's Message:

The MGM Medical College & Hospital was established in 1990 with a vision to be a top-ranking Centre of Excellence in Medical Education and Research. Students graduating from the Institute will have all the required skills to deliver quality health care to all sections of the society with compassion and benevolence, without prejudice or discrimination, at affordable cost.

During recent years the college has established itself as one of the top ranking medical college in the nation. This medical college is among very few Institutes in the state of Maharashtra which offers post graduates courses in all the medical subjects, Super Specialty courses in five branches in addition to its MBBS course with a capacity of 150.

During the previous year the college has achieved new heights and miles stone towards becoming a center of excellence. In the field of patient care and clinical services apart from its state of art hospital infrastructure the hospital has added new OBGY intensive care unit in its group of existing specialized ICU's. The super specialty service was strengthen specially in the field of Urology and Nephrology by upgrading its kidney transplant unit and dialysis unit along with new ward and department. It is important to mention that the medical college hospital continuous to be in the top "A+" category of Rajiv Gandhi Jeevandayi Arogya Yojna since last three years. The blood bank is NABH accredited and the central path lab is accredited by NABL.

As a part of vision of reaching towards academic excellence the Institute has adopted various latest teaching and learning methodology one of which is early clinical exposure and integrated teaching. The medical college central library has been shifted into its new state of art complex where latest facilities with upgraded books and journals including online facilities are provided. The Institution has organized various National and International level conferences throughout the year. The ICCME (International Conference on Challenges In Medical Education) organized in the year 2015 was a grand success in which various National and International experts of medical education took part.

The medical college has decided to accelerate and emphasize on basic medical research as a part of which the faculties are encouraged to participate in research. One of the faculties' research findings has been incorporated by WHO in its publications. Few faculties have got best research awards. The college has

recently signed a MOU with Kyungpook National University South Korea as a part of its academic and research development program. This international collaboration will definitely help the students and faculty to exchange their knowledge and skill.

As a part of quality enhancement the IQAC (Internal Quality Assurance Cell) of the college has introduced specific quality improvement program which includes “Individual Faculty Appraisal System”, apart from its existing different cells like Attendance Cell, Student Welfare Cell etc.

In the forthcoming years the college plans to focus on fundamental research in medical sciences and to do clinical research. The college plans to starts super specialty courses in Neonatology, Neurology, Neurosurgery and Post Graduate courses in Emergency Medicine and Critical Care. The hospital plans to upgrade its services in the field of Endocrinology, Immunohistochemistry, and Oncology. The college is going for NABH accreditation in the coming year.

**SCHOOL OF BIOMEDICAL
SCIENCES,
NAVI MUMBAI
OVERVIEW**

FROM THE DIRECTOR'S DESK

It gives me great pleasure to present the annual report of MGMSBS, which though summarizes the achievements, yet remind us what more to be accomplished. In the report we have attempted to capture the spirit and vitality of SBS that exemplify the multidisciplinary approach and collegiality that is the hall mark of our activities.

The School was established in 2007 as a constituent unit of the institution. Realizing the need of well qualified allied health care professionals, Biomedical Science opened up the career options for many young minds who can serve the health care system of our country.

The School offers 7 UG Courses viz; B.Sc. Operation Theatre and Anesthesia technology, B.Sc Dialysis Technology, B.Sc Medical Imaging Technology, B.Sc Medical Laboratory Technology, B.Sc Perfusion Technology, B.Sc Cardiac Care Technology & B.Sc Optometry. The P.G courses offered are; M.Sc Medical Anatomy, M.Sc Medical Physiology, M.Sc Medical Biochemistry, M.Sc Medical Microbiology, M.Sc Medical Pharmacology, M.Sc Medical Biotechnology, M.Sc Medical Genetics and PhD for these courses. The school has strength of 560 students.

The School is charged with fostering an environment in which graduate and post graduate students are guided thoroughly by well experienced teachers who teach them importance of learning, applications of their knowledge and participation in research activities which brings out the best in them.

MGM SBS envisions to achieve excellent standard in quality education and research by keeping in pace with rapidly changing global trends and technologies to create vibrant and creative world for students seeking education.

As we move to another year I look forward along with my dedicated team of staff to develop new strategic planning that will continue to drive our research and educational activities in an upward trajectory.

HIGHLIGHTS OF SCHOOL OF BIOMEDICAL SCIENCES, NAVI MUMBAI

MGMSBS is one of the premium Institute in Navi Mumbai offering graduation in Paramedical Sciences. The Institute coordinates professional learning experiences and training for students in the field of Paramedical Sciences. Paramedical can be defined as a practice in the field of medical science that deals with pre hospital emergency services. The increasing demand of skilled paramedical professionals has opened up several career opportunities for young aspirants. Presently there are very few institutions which impart proper training to the paramedical staff in a

protocol based manner. MGMSBS is committed to provide quality training in the enormous field of paramedical sciences and in the field of research.

BEST PRACTICES OF INSTITUTE

- The institute presents an education system that goes beyond chalk and talk; it believes in imparting its students the basic and advanced knowledge of a subject as well as technical details.
- Problem based learning approach and innovative educational strategies are used to facilitate integration of clinical and basic sciences.
- Students are posted for internship across various groups of hospitals of MGM Trust under the supervision of faculty.
- Clinical training is provided in various areas namely OPD, IPD, ICU, MICU, and respective course specific departments.
- Training in research is incorporated from the beginning of the course & encouraged throughout.
- Students of MGMSBS, Navi Mumbai are encouraged to participate in various academic, sports & cultural activities organized by the college, inter college & national level.
- The postgraduate students are sensitized to research and development in first year itself.
- Various guest lectures are organized for the students to give them an all round development.

A. MGM SBS Infrastructure

Academic Facilities

Well equipped classrooms, teaching labs and a library with access to books and journals – both in print and online format.

Various labs for UG and PG students

With the advantage of the various in-house hospitals, which have well equipped service laboratories in the academic sections cater to training post graduates and undergraduates for academics and research purpose. Students, both UG and PG are equipped with hands on training for life saving techniques; techniques to handle environmental, trauma and medical emergencies. An additional asset to the school is its well qualified teachers who adopt innovative methods for teaching. The training methods include- didactic lectures, seminars, group teaching and laboratory based training.

Laboratory training is delivered to the students by the teachers in the form of hands on training classes, work stations, applied exercise, student to student interactions and teacher to student interaction. Regular PG seminars, journal club, slid discussions, clinical sample discussions and instrument seminars are conducted with the guidance of qualified clinicians.

B. RESEARCH FACILITIES AVAILABLE

School of Biomedical Sciences is an interdisciplinary science that involves the study of human health and disease. Students are trained in various disciplines to gain an understanding of how the human body is organized (anatomy), how the various organs and cells function (physiology, biochemistry and molecular biology), structural and chemical changes taking place in human system (pathology and clinical biochemistry), agents of diseases (microbiology, non-communicable diseases, genetics), diagnosis (clinical pathology, microbiology, biochemistry and molecular biology) agents used for treatment of diseases (pharmacology) and molecular mechanisms (biotechnology).

MGMSBS gives a lot of emphasis to students and staff for conducting research, presentation and publications of research papers in various peer reviewed indexed journals and also presenting students work in various national and international conferences.

For encouraging research among staff and students we have a dedicated Central research Laboratory under MGMSBS which is intensely working to carry out Genetic, Molecular and Biotechnological Applied Research. The laboratory is well equipped with High throughput technique of Real-time PCR as well as technology for ELISA, DNA/RNA extraction, Electrophoresis (Vertical/Horizontal), Microbiological assays and Zebra fish cultivation (as animal model).

- Discovery of novel predictive Biomarkers
- Affordable and Rapid Diagnostic for TB and Malaria.
- Prediction of Disease and Prophylactic Disease Management.
- Decoding Infectious Diseases at Host Genome level.

Keeping up with recent trends in research we have upgraded our facility to include:

- Zebrafish lab
- Hydroponics lab
- Molecular lab – RT PCR,
- Infectious lab – TB drug delivery & diagnostic,
- Genetic testing and counseling Lab
- Animal house as a part of medical college which gives support to carry out research

DETAILS OF THE RESEARCH LABS AVAILABLE

ZEBRAFISH FACILITY: Our Zebrafish facility is located in the MGM Medical College Building in the Central Research Laboratory having a total area of about 77 sq mtr. The facility consists of two dedicated rooms with 3 iron Tank racks for accommodating about 110 tanks for research and breeding projects and features dusking and dawning automatic diurnal lighting control. The 110 tanks have a holding capacity of more than 550 adult zebrafish.

Basic parameters including temperature, conductivity, and pH are monitored that provides continuous real time data to maintain ideal housing conditions. Biological water testing is conducted quarterly. Both the rooms are equipped with their own work space to allow for behavioral studies complete with Motic Stereo microscope attached with computer for easy data acquisition. For more in-depth studies we have the In-vitrogen Evos FL Auto Imaging System for automated imaging platform which is capable of live fish imaging, stained area scanning, image stitching, and time-lapse imaging and fluorescent image scanning. The zebra fish facility is used by PhD students, M.Sc students and other students of MGMIHS (dental, medical, etc) for their dissertation work.

The thrust area of our zebra fish laboratory is

- Nanotoxicity,
- Model for toxicological, environmental & compound screening
- Behavioral studies
- screens for different disease model

Zebrafish Lab

HYDROPONICS LAB: CRL established raft based hydroponics lab that can be easily implemented in laboratories interested in pursuing studies on plant mineral nutrition. This is a technology for growing plants in nutrient solutions (water containing fertilizers) with or without the use of an artificial medium. It has been utilized as one of the standard methods for plant biology research and are also used in commercial production for several vegetables and lettuce. Within the plant research community, numerous hydroponic systems have been designed to study plant responses to biotic and abiotic stresses.

CRL hydroponics Lab Setup

MGM LABORATORY FOR INFECTIOUS DISEASE, RESEARCH AND DIAGNOSTICS

MGM CRL Molecular lab has state of the art molecular research facility for all interdisciplinary studies. The thrust area to run this lab is its own R&D programs in technology development, assay development and biomarker discovery. This lab is equipped with cutting edge technologies like Real Time PCR, NAAT, DNA Hybridization assays, EVOS FL Auto microscope, Immunological assays, and Culture and Drug susceptibility studies.

As a healthcare organization, we are conscious of our responsibility to reduce the test cost burden on the society. We aim to achieve this objective with increased efficiency and productivity gained from a centralized processing laboratory which is in line with the Vision and Mission of our institute.

This laboratory is closely pursuing Research & Development regarding laser based fluorescent detection system & related activities/ systems for quick detection of TB/ Infectious Diseases using Nanotechnology and related advanced areas.

A joint patent has been filed and published. The collaborating institutes are BARC, MGM and BITS, Goa. Concept and Micro Nano-Engineering support was provided by BARC, Bio-chemical process using Gold Nano Particles was developed by MGM and Fluorescence Detection methodology was developed by BITS, Goa. Presently all the aspects of the development viz., biochip engineering, biotechnology and detection system are being pursued at MGM, Kamothe campus.

Prototype of TB-Detector system

GENETIC TESTING AND COUNSELING LAB: Genetics is the field of heredity which deals with chromosomes in nuclei of cells and genes on the chromosomes and nucleotides which forms the genes. Cytogenetic is the branch of genetics in which chromosomes are studied in terms of their number and structure. Karyotyping is a gold standard technique in which chromosomes are studied and arranged according to their sizes. On the basis of report of karyotyping genetic counseling is offered to the patients, relatives and parents. Genetic counseling done at right time will definitely achieve the goal of reducing incidence of same genetic defect. Cytogenetic laboratory in MGMIHS offers

karyotyping by using peripheral blood, bone marrow and products of conception. Up till now we have done karyotyping in more than 200 cases and offered Genetic counseling in more than 150 cases.

C. DETAILS OF THE EXTENSION ACTIVITIES AND INSTITUTIONAL SOCIAL RESPONSIBILITY

- MGM School of Biomedical sciences have taken a lead in the field of institute's social responsibility. Dept of Biotechnology is working for the development a portable TB Detection System. As an extension of this research, MGM has taken up in Project Mode, development of the prototype and work out engineering design and biotechnology process optimization studies. A comprehensive indigenous system has been conceived and first prototype has been developed. Initial comparative studies with existing system have given very encouraging results.

MGMSBS may be a unique institute to take up advance technology development, including Nanotechnology, for the benefit of poor strata of society, generally suffering from TB.

Portable hand held prototype TB detector system

- MGM VACUUM DRESSING SYSTEM - NEGATIVE-PRESSURE WOUND THERAPY (NPWT)** is a therapeutic technique using a vacuum dressing to promote healing in acute or chronic wounds and enhance healing of second and third degree burns. NPWT promotes wound healing by applying a vacuum through a special sealed dressing. The continued vacuum draws out fluid from the wound and increases blood flow to the area. The vacuum may be applied continuously or intermittently, depending on the type of wound being treated and the clinical objectives.

There are various designs and devices that are available in the market but the cost of these devices and their application cost are very high. People from the low economic strata are far away from the reach of such innovative technology that heals wounds without pain. This is an interdisciplinary effort of scientists, engineers of MGM along with doctors of the orthopedic dept, who have designed and modified the versions of this technology in cost effective manner and brought the prices down by 70%. By using existing vacuum facilities available in hospitals we have created a hand held device by using vacuum pump. Due to these developments by MGM, the poor strata of the society will be highly benefited because of the low cost technology.

Modified Systems of NPWT developed by MGM

- **MGM FALL-SAFE BELT:** Elderly people are prone to falls leading to major bone fractures and at times can be fatal. To address this issue, MGM has conceived a Fall-Safe belt just like air bags of the car. As soon as it senses that a person is falling, a trigger sensor is actuated and air cushions around the person's hips and neck are inflated. It is done quick enough such that when the person is about to fall the cushions provides enough support to the body to avoid fracture and injury to his head thereby avoiding fatal injuries.
- **PORTABLE BIO-SAFETY CABINET FOR RURAL SETTINGS:** In our endeavor to provide good healthcare services to rural India, a project has been initiated to design and develop a Biosafety Cabinet, which is not only smaller in size but also can work in rural dusty environment. In the initial phase complete sputum processing system for MTB detection will be housed inside. This effort is in line with our TB detection system development program. Patent filing this unique design is in progress.

ACHIEVEMENTS:

1. **Mr. Yogesh Patil “MGM – Vacuum Dressing System ”**
Received Third prize for Poster presentation in National sciences day on 27th Feb 2017 MGMIHS, Navi Mumbai
2. **Ms Subhangi Salve, 3rd year MIT student, qualified for the entrance examination conducted by Tata Memorial Hospital for Two Years Advance Diploma Course in Imaging Technology as notified by TMH in February 2017**

**EXTRA-MURAL ACTIVITIES/GUEST LECTURERS ORGANIZED
BY MGM SCHOOL OF BIOMEDICAL SCIENCES,
NAVI MUMBAI**

Sr. No	Title of the Event	Date of the Event	Purpose of the Visit
1	Smart nano material for affordable diagnosis	9th Dec, 16	Guest lecture
2	Tuning into your heart	Feb 24-25, Mar 24-25 2017	CME
3	Yoga and Spirituality at work place	27 th June 2017	Guest lecture
4	Biomedical Research using synchrotron radiation	29 th June 2017	Guest Lecture

GUEST LECTURES

- Dr. D Ravi Shankaran, Associate Professor Dept of Nanotechnology, Chennai .
- Dr. Shankaran gave a brief talk on Smart nano material for affordable diagnosis.

- Dr. Mohandas Hegde, Director, CREST, Bangalore
- Dr. Hegde delivered a guest lecture on Yoga and Spirituality at work place on the event of international Yoga Day

- Dr. Vishal Dhamgaye, Scientific officer "E", RRCAT, Indore.
- Dr. Dhamgaye Spoke on his work related to Biomedical Research using synchrotron radiation.

A 4 day CME program title “Tuning into the Heart” was inaugurated on 24th February 2017 at MGM Institute of Health Sciences, Kamothe, and Navi Mumbai. This CME was organized by MGMSBS in association with Heartfulness institute and The Annenberg Center For Health Sciences, USA giving doctors a 15 AMA (American Medical Association) category 1 credits.

The program included indept study of personal assessment, importance of values and self development and how to impart them in medical profession. This was a very interactive session.

Amidst the august gathering of Doctors, Nurses, Physiotheriost, Dentists, Allied Health Professionals and students of MGM Institute of Health Sciences, along with the members of Heartfulness Institute in the MGM Medical college campus, Navi Mumbai inaugurated the CME “Tuning into the heart”. A total gathering of about 150 members were present for the entire CME.

B.Sc, MIT Final year students as a part of their visit, were taken to Tata Memorial Hospital,, & Radiation Medicine Centre, Parel, Mumbai to get practical demonstration of various types of latest imaging equipment which included - Digital Mammography, Interventional Radiography, Nuclear Medicine, Gamma Camera, Combined PET/CT, Ortho PentoGraphy (OPG), Dental X-ray Equipment, Magnetic Resonance Imaging(MRI), Ultra SonoGraphy (USG).

Department of Radio-diagnosis, Tata Memorial Hospital conducted The First National CME for staff and students of Medical Radiology and Imaging Technology during 27th & 28th May 2017 in Chowsky Hall, Tata Memorial Hospital, Mumbai. The CME was well attended by student of Imaging and Technology from leading hospitals throughout the country. Several MIT students from MGM's School of Biomedical Sciences also participated in the conference. Student's participation was encouraged to acquire wide exposure on latest imaging technique and advance post graduate diploma and degree courses & internships offered by Tata Memorial Hospital.

A study tour to BARC on 8th June, was arranged for the benefit of outgoing Final Year MIT Students. The visiting students were taken around to various facilities including nuclear reactor so as to get familiarised with latest technological development related to radiation, radiation generating equipment, radioisotope production & their applications in PET/CT Imaging Tomography.

AWARDS & HONORS RECEIVED BY STUDENTS/FACULTY

- ✓ Student Achievements
 - Chancellor medals – 2 students
 - National portal scholarship – 6 students
 - Institutional fee concession – 37 students

**MGM School of Physiotherapy,
Navi Mumbai**

Director's Message :

MGM School of Physiotherapy was established by MGM Trust in 2008 as a constituent unit of MGM Institute of Health Sciences. In 2008, MGMSOP was the fourth self-aided Physiotherapy Institute in Navi Mumbai.

The vision to create a healthy ecosystem between education, patient care and research and train Physiotherapist to address local healthcare problems with global competency drove the planning of MGMSOP. Following the guidelines of UGC, the then Indian Association of Physiotherapists affiliated to World Confederation of Physical Therapy and Maharashtra Council for Occupational Therapists and Physiotherapists, MGMSOP was structured.

A dynamic team of 10 physiotherapists driven by a zest to excel commenced BPT program with an intake of 50 students. An effective sustainable model of care was designed to offer patient care by integrating student clinical training. Parallel efforts began to build research capacity within MGMSOP and network with national and international institutes of Physiotherapy and other related disciplines to initiate meaningful collaborative inter-disciplinary research work to fill gaps in scientific body of evidence relevant to Indian healthcare. Intense dedicated efforts culminated in establishment of an exclusive centre for research in movement science, which is at the core of Physiotherapy profession. MGM Centre of Human Movement Science was established in 2015 with generous support from International Society of Biomechanics, Bio Engineering and Technology Incubation Centre, IIT Bombay and Cardiff University, UK. Such an advanced research facility has huge impetus on research activities funded by national and international funding agencies and industry linkages.

At MGMSOP, in addition to specialized physiotherapy services at tertiary level, we have focused on reaching out to physiotherapy care needs of neighboring population residing in Navi Mumbai and Raigarh districts of Maharashtra through outreach programs and ongoing extension activities to persons with disabilities. Attempts to offer evidence based sustainable patient care to underserved people of adjoining community culminated in establishment of MGM-World Spine Care clinic at MGM Hospital Kamothe. Strategic location of MGMSOP is its strength which allows access to address healthcare problems of urban and rural population of Navi Mumbai and Raigarh districts.

We congratulate each member of MGMSOP in effectively conducting a triad of academic, research and patient care activities inclusive of outreach and extension programs which is gradually taking MGMSOP to newer heights.

We envisage that by 2020, MGMSOP will emerge as a robust Physiotherapy institute of national and international repute with creative training methods; innovative research; extensive, evidence based clinical care and entrepreneurial industry linkages.

CONSTITUENT COLLEGE/DEPARTMENTS:

Principal's Message :

Welcome to Department of Physiotherapy, a department that focuses on opportunity and achievement, a place where students are encouraged and supported to excel.

Apart from class room teaching and clinical training at the 850 bedded MGM Hospital and Research Centre , our outreach programmes such as physiotherapy camps in the rural areas ,consultancy services ,awareness programmes for society, exposure to onfield training in sports, etc gives the required exposure to the students. The vision and mission of our college has added a thrust to research and quality patient care.

Our aim is to transform lives through the provision of an excellent education. It is our express intention to develop graduates who are dynamic, caring, and optimistic and, best of all, leave better qualified for work, higher education or just life itself.

We believe the key to success for all our students is to find an appropriate pathway for them so that, as they move through their educational journey, they have an enjoyable and happy experience that is tailored to meet their individual needs. We have a hard working and gifted staff, as well as supportive parents, so together we have developed innovative approaches to learning.

We are all very pleased to be part of Mahatma Gandhi Mission and with our basic values constantly tended and enhanced; we try to ensure that this is a college that is willing and able to innovate. It is a college that offers our students and staff a myriad of opportunities and one all of us can be proud to be a part .

From DIRECTOR's desk

MGM Institute's University Department of Nursing had its inception in 2008 with an intake of 30 B.Sc Nursing students per annum and approved for enhancement of seats to 50 per annum from the academic year 2009. The institute was started Post Basic B.Sc Nursing programme in 2013 and subsequently the M.Sc Nursing & Post Basic Diploma courses in 5 Critical Care Nursing specialities were also approved in 2014 & 2015 respectively.

Now proposal for Nurse Practitioner programme is under process.

The institute has been a very strong support in providing nursing manpower to MGM group of hospitals, Navi Mumbai for last several years. The graduates from MGM Institute's University Department of Nursing (MGMUDN) are working in various prestigious health institutions in Mumbai, other parts of country and abroad. Presently more than 60 graduates this institute are working in MGM group of hospitals, Navi Mumbai.

The faculty performs dual responsibilities in the hospital for carrying out administrative tasks which includes manpower planning, staff recruitment, in-service education and strategies for retention of existing staffs apart from teaching responsibilities in the college. Various protocols, Structured Operating Procedures and manuals are being prepared to bring excellence in patient care. The institute conducts comprehensive training and development activities for nursing personnel working in the hospital. Regular meetings with hospital nursing personnel are conducted to discuss ground level difficulties and to find appropriate strategies.

The college abides by the norms laid down by Indian Nursing Council in terms of academic, co-curricular and extracurricular activities. The institute strives to enhance the quality of nursing education, research and practice through its well planned academic calendars, time tables and other activities every year.

The college encourages teachers to not only teach but also participate in activities that are enriching for students as well as for the teachers. Apart from academic and research activities the institute also organizes various community outreach activities and other co-curricular activities. The students participate in various competitions organized by Trained Nurses' Association of India, Millennium city branch, Navi Mumbai and win several prizes every year. Faculty participates in national and international workshops / conferences within and outside MGM

institutions and present scientific papers and posters. Meritorious students receive scholarship from Sir Ratan Tata Trust Mumbai and Minority students from DMER, Govt. of Maharashtra. Eleven students received meritorious scholarship and seven minority in 2016.

MGM Institute's University Department of Nursing endeavors to maintain a "student friendly environment" to provide quality education and prepare professional nurses sensitive to human needs.

Dr. Prabha K. Dasila, Ph.D (N), M.Sc (N), RN, RM
Professor & Director
MGM Institute's University Department of Nursing,
Kamothe, Navi Mumbai.

Principal's Message :

Welcome,

MGM Institutes University Dept. of Nursing, Aurangabad has been at the vanguard of academics since its establishment in the year 2009. We value every individual in our care and it is our aim to provide the best possible environment in which students can succeed. Society believes, the progress of a country depends on the health of the citizens and education of nurses contributes a lot to promote and maintain the health of the nation as a whole.

We in this institute take up this responsibility in promoting nursing education based on scientific principles, relating to theory and practice, in order to produce skilled, highly competent and qualified nurses, to face the challenges. We promote all round development of students with special emphasis on intellectual, cultural and spiritual aspects to prepare them as effective change agents in the dynamic society.

Dr. Mrs. Anuradha N. Mhaske
Ph.D.(Community Health Nursing)
Director/Principal,

UNIVERSITY DEPARTMENT OF
PROSTHETICS AND ORTHOTICS**

PRINCIPAL'S MESSAGE:

With the motto “**IMPOSSIBLE itself, means I' m POSSIBLE**”, the MGM Department of Prosthetics and Orthotics started rendering services since 2011, under the MGM Medical College and Hospital, Navi Mumbai.

We are empanelled under the MAHATMA JYOTIBA PHULE JAN AROGYA YOJNA (MJPJAY) for Raigad District and have been playing pivotal role in providing aids and appliances to “DIVYANGJAN” . With the aim to provide the best of Prosthetic -Orthotic Education, the MGM Institute's University Department of Prosthetics and Orthotics was started in 2014. It is also the First Deemed University, approved by Rehabilitation Council of India (RCI), to run the Bachelors Degree Course in Prosthetics and Orthotics(BPO) in India.

We strive to train the students to excel in providing their services to the “DIVYANGJAN” in camps and rural setups, besides their regular training in academics and hospital setups. With the dedicated and devoted team of staff members, we are looking forward to benchmark MGM as the Centre of Excellence in P&O education and services.

ACTIVITIES:-

ACTIVITY 01

In 2014 , on 2nd & 3rd August 2014, a Continuous Rehabilitation Education Program (CRE) was organized in MGM Hospital, Kamothe , Navi Mumbai. The CRE was organized by the Department of Prosthetics & Orthotics in collaboration with Orthotics Prosthetics Association of India (OPAI) with approval from Rehabilitation Council Of India (RCI).

Total 50 individuals which includes students as well as professionals were benefitted by this CRE ,by upgrading their knowledge in “Advancements in Prosthetics & Orthotics “ & getting RCI POINTS which are essential for their continuation of professional registration.

ACTIVITY 02

In 2015, 23rd to 27th feb 2015 a Camp was organized in MGM Hospital, Kamothe, Navi Mumbai. The Camp was organized by the Department of Prosthetics & Orthotics in collaboration with PODIAPRO Pvt Ltd.

Approximately 100 individuals were assessed for different types of foot deformities which include staffs, students as well as professionals of P & O and other fraternities, by evaluation and assessments. Amongst all approximately 20-30 patients were benefitted with foot insoles.

ACTIVITY 03

In 2015, on 17 April 2015 a Seminar was organized in MGM Institute of Health Sciences, Kamothe, Navi Mumbai. The Seminar was organized by the Department of Prosthetics & Orthotics.

Total 20 individuals which includes staffs as well as professionals of different fraternity were benefitted by this Seminar, by upgrading their knowledge in “Advanced systems in Prosthetics”, where two patients were taken into pipeline for fitting.

ACTIVITY 04

In 2016, on 30th April & 1st May 2016 A Two Days' CRE program & Hands on Workshop was organized in MGM Hospital, Kamothe, Navi Mumbai. The workshop was organized by the Department of Prosthetics & Orthotics in association with Indian Pedorthic Association (IPA).

Total 50 individuals which includes Delegates, students as well as professionals were benefitted by this workshop, by upgrading their knowledge in "Advancements in Pedorthic Medicines", where 3 - 5 patients were given the foot insoles free of charge.

ACTIVITY 05

In 2017, 28th & 29th March 2017, A Two Days' Rehabilitation Camp was organized in MGM Hospital, Kamothe, Navi Mumbai. The Camp was organized by the Department of Prosthetics & Orthotics in association with Artificial Limbs Manufacturing Company (ALIMCO), which is a government statutory body.

Total 50 patients which includes Prosthetic & Orthotic Cases were benefitted by this camp.

ACTIVITY 06

On 18th August 2017, Department of Prosthetics and Orthotics has conducted a distribution camp in the collaboration with ALIMCO at MGM University, Kamothe, Navi Mumbai.

Nearly 400 Divyangajan (specially abled patients) were distributed aids and appliances such as Prostheses and Orthoses, Motorised wheelchairs, Smart canes, MSEID KITS etc. Sponsored by Mazgaon dock ship Builders Ltd. Under CSR (Corporate Social Responsibility) project.

MGMIHS OMICS RESEARCH CENTER

(A centre of excellence in drug discovery and molecular diagnostics)

Under
MGM Institute of Health Sciences
(Deemed University u/s 3 of UGC Act, 1956,
Grade "A" Accredited by NAAC)

ANNUAL REPORT

INTRODUCTION

MGM Institute of Health Sciences, Navi Mumbai established “MGMIHS OMICS Research Center” a centre of excellence mainly accelerating the basic and applied research in the area of drug discovery and molecular diagnostics. Using various domain of Omics such as genomics, proteomics and computational biology, this center is providing unique and exploratory program for discovery of multifunctional smart materials for both therapeutics and diagnostics use. Research and technology innovation of center is mainly revolving around the integration of advanced knowledge of protein science, enzymology, metabolic network, natural products chemistry, green synthesis etc. The thrust area of this centre i.e. Biomarker discovery, rational drug discovery, nano-biotechnology, reversal of drug resistance and green technology. Presently centre is actively engaged in discovery and diagnostic research in the area of tuberculosis, malaria, obesity and diabetes.

VISION

- Discovery of multifunctional drug
- Affordable molecular diagnostics

UNIQUENESS

- Main focus of the research is on central theme i.e. development and use of multitasking materials including nanoparticles for drug discovery and molecular diagnostics
- Concept based protocol for reversible of drug resistance
- Protein structure, function and enzyme kinetics based centre for predictive diagnostics
- Resource centre for green synthesis of nanomaterials
- Green synthesized nanoparticles library

GOALS & OBJECTIVES

- Understanding of disease progression and discovery of novel biomarker
- Development of affordable and rapid molecular diagnostics including predictive diagnostics.
- Recognition and recruitment of biomarker as drug target and mechanism based drug discovery mainly based on peptides and small natural molecule.
- Understanding of disease etiology and drug resistance and mechanism based process for drug resistance reversal.
- To create referral centre for predictive diagnostics. To provide training in the area of proteomics and bioprocess innovation and patenting.
- Customization and green synthesis of nanoparticle and their engineering for development of very high sensitive diagnostics
- Generation of high value patents and high impact factor publications etc.

INFRASTRUCTURE

Basic facilities and advanced instruments are available with MGMHS OMICS Research Center of MGMHS, Navi Mumbai. Some important instruments such as Spectrofluorophotometer, UV-Vis Spectrophotometer, ELISA Reader, HPLC, Fume Hood, Laminar Air flow, Biosafety Cabinet, CO₂ Incubator, Thermal cycler, Gel Electrophoresis instruments, Inverted microscope, -20°C refrigerator etc. and other large number of basic and small supportive instruments. This centre is well equipped with protein isolation, purification and crystallization. This centre is powered by availability of cell culture and microbial culture facility. Centre is also equipped with an advanced proteome/protein based several biosystems for biofabrication of nanoparticles. Bio-fabrication based generation of quantum dots facility is major attraction. Centre possess natural extract library for discovery of several multifunctional molecules for potential therapeutic use. Centre also possesses atleast seven nanoparticles for therapeutic and diagnostic use. It is a spacious centre to support research and training program in relevant field.

Sr.no	Name of the project	PI/CoPI/students/others	Funding agency	Year (started)	Domain
1	Potent pancreatic lipase inhibitor from food plants and development of safer anti-obesity formulation.	Sveeta Mhatre Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2013	 <p>Obese rat and 3T3-L1 cell line for antiobesity molecule study (mouse embryonic fibroblast)</p>
2	Biological synthesis of highly efficient quantum dots and its application in detection of MTB and latent TB (LTB) antigens.	Amita Bhagit Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2013	 <p>TLC Fingerprinting of plant extract</p>  <p>3D spectrum of cerium oxide quantum dots</p>
3	Differentiation of activity of tuberculosis in children on basis of detection of secretory lipolytic enzymes of Tubercle bacilli in blood.	Dr. Vijay Kamale Co-Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2013	 <p>Plate showing zone of clearance by lipolytic enzymes</p>
4	Study of plasmodium specific phospholipase A ₂ levels in children with malaria and correlation of its level with severity of malaria in children.	Dr. Jeetendra Gavhane Co-Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2013	 <p>PAGE of Malarial samples</p>

5	To identify potential & low cost anti-malarial agent from plant sources for effective use in Resistance malaria through modulation of drug efflux pump	Dr. Rakesh Thamke Co-Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2013	 Plant with anti-malarial property
6	Effect of squatting on knee articular cartilage in healthy adults	Ms. Bela Agarwal Co-Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2014	 Enzyme Immuno Assay plate
7.	Isolation & characterization of multifunctional molecule from plant and its antidiabetes potential	Mrs. Priyanka Rathod Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2016	
8.	Isolation of plant derived efflux pump inhibitor and its drug susceptibility potential in <i>plasmodium falciparum</i>	Ms. Chandana Kulkarni Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2016	
	Genetic and Phenotypic analysis of fucosyltransferase-2 (<i>FUT-2</i>) in Mumbai Population	PI: Ms Kshitija Rane	Department of Science and Technology (DST), India	2017	 <i>FUT2</i> Gene exon2 polymorphisms(Heterozygous & Mutant)
9.	Protein mediated synthesis of anti oxidant calcium Nanoparticles and its UV protecting potential.	Mrs. Sasmita Barik Guide: Dr. Raman P. Yadav	MGM Institute of Health Sciences	2017	 TEM analysis of calcium nanoparticles

EXTRAMURAL ONGOING PROJECTS

- Development of photonic crystal waveguide (PCW) based multiplexers for optical Networks and sensor applications.
Funding agency: BRNS, Department of Atomic Energy, Government of India
PI: Dr. S.K Narayan Khedkar & Co PI: Dr. Raman P. Yadav
- Genetic and phenotypic analysis of fucosyltransferase 2 gene in Mumbai population) DST (SR/WOS-A/LS-1118/2015)
Funding agency: Department of Science and Technology, New Delhi,
Pi: Ms. Kshitija Rane

ACCOMPLISHMENT

COMPLETED PROJECTS

S: No	Names of the Investigators	Title of the topic	Student	Agency of funding	Year of completion
1.	Dr. Raman P. Yadav	Biological synthesis of silver nanoparticles: Antimicrobial activity against the clinical isolates.	Nilesh Paul	MGMIHS	2016
2.	Dr. Raman P.Yadav	Study of carbon capturing potential of carbonic anhydrase immobilized system.	Monica Mane	MGMIHS	2017
3.	Dr. Raman P.Yadav	Study of protein driven arsenic removal from drinking water.	Rajashree Shinde	MGMIHS	2017
4.	Dr. Raman P.Yadav	Partial purification and characterization of carbonic anhydrase isolated from plant source and its potential in carbon-di-oxide sequestration.	Bidya Jha	MGMIHS	2017

PATENT FILED/PUBLISHED

Sr. no	Patent application no	Title	Name of applicants and institution
1.	201721018037 A	Bioreactor for very fast generation of multifunctional fluorescent nanoparticles	YADAV, Raman Prasad , KADAM, Sudhirchandra Nanasahab, BHAGIT, Amita Anant. MGM Institute of Health Sciences, Sector -1, Kamothe, Navi Mumbai-410209, Maharashtra, India
2.	201721040727A	Quantum dot powered IP-10 antibody based kit for latent TB and TB antigen	YADAV, Raman Prasad , KADAM, Sudhirchandra Nanasahab, KADAM, Nitin Nanasahab, BHAGIT, Amita Anant. MGM Institute of Health Sciences, Sector -1, Kamothe, Navi Mumbai-410209, Maharashtra, India

TECHNOLOGY DEVELOPED

1. Protein based bioreactor for generation of florescent nanoparticles (Quantum dots)
2. Cerium quantum dot powered IP-10 antibody assembly for identification of TB antigen

PROCESS DEVELOPED

1. Eight plant extract based system for generation of metallic nanoparticles
2. Three protein/ proteome based system for generation of metallic nanoparticles
3. Three immobilized protein/ proteome based system for generation of metallic nanoparticles

PRODUCTS DEVELOPED

1. Two pancreatic lipase inhibitor (small molecule and protein)
2. Seven green synthesized nanoparticles (Zn, Fe, Mg, Ca, Ce, Si, Ag)
3. Three quantum dots (ZnS, CeO₂ & SiO₂)
4. Cerium quantum dot powered IP-10 antibody assembly for identification of TB antigen.

AWARDS & HONORS

	Name	Award title	Awarded by	Date
	Dr. Raman P Yadav	Distinguished Scientist Award	Venus International Foundation, India	05.12.16
	Ms. Kshitija Rane	Young Scientist Award	Indian Virological Society	09.12.17

Presentation in National & International Conference/Symposium etc.

1.	Ms Kshitija Rane	VIROCON 2017 (National)	Oral presentation	Nitte University, Mangalore	7 th -9 th December 2017
2.	Ms. Kshitija Rane	The landscape of genetic variants in asian founder population – from near to far east(International)	Oral presentation	Hotel Crown Plaza, Kochi	9 th -12 th November 2017
3.	Ms. Kshitija Rane	Next-Gen Sequencing Biology, Bioinformatics and Technology NGBT 2017 (International)	Poster presentation	Hotel Mayfair Convention, Bhubaneswar	2 nd -5 th October 2017
4.	Ms. Kshitija Rane	Mahacon IV Birth Defects (National)	Volunteer / organizing committee	MGM Institute of Health Sciences	18 th -19 th Sep, 2017.
5.	Ms. Amita Bhagit	Indo-US Conference on Advances in Enzymology: Implications on Health, Disease and Therapeutics	Presented	ACTREC, Navi Mumbai	17 th -19 th January 2017
6.	Ms. Amita Bhagit	Workshop : Indo-US Conference on Advances in Enzymology: Implications on Health, Disease and Therapeutics	Attended	ACTREC, Navi Mumbai	15 th -16 th January 2017

7.	Ms. Sveceta Mhatre	SBC I 2016-Innovations in Biological Research on Health and Disease	presented	CFTRI, Mysore	21 th -24 th December 2016

PROGRAM SUPPORTED

1. Ph.D. Biotechnology program under MGMIHS, Navi Mumbai.
2. M.Sc. Molecular Biology (two years) program under School of Biomedical Sciences, MGMIHS, Navi Mumbai

OTHER ACADEMIC ACTIVITIES

- Technical Director (additional responsibility), MGM Central Research Laboratory, MGM Medical College & Hospital/MGMIHS, Navi Mumbai
- Course coordinator, M.Sc. Molecular Biology, MGM Institute's University Department of Biomedical Sciences, MGMIHS, Navi Mumbai.
- Adjunct Professor, Department of Biotechnology, MGM College of Engineering & Technology, Navi Mumbai
- Member of Board of Studies (Biomedical Sciences), MGMIHS, Navi Mumbai.
- Member of Academic council, MGMIHS, Navi Mumbai.
- Member of Institutional Ethics Committee MGMIHS, Navi Mumbai
- Member of Research Recognition Committee (RRC) MGMIHS, Navi Mumbai
- Member, Editorial Review Board, MGM Journal of Medical Sciences
- Life member: Association of Microbiologists of India (AMI)
- Ph.D. Guide-Biotechnology, MGMIHS, Navi Mumbai

COLLABORATION

Presently only internal collaboration (MGM-CET, Navi Mumbai, MGM Medical College, MGM Dental College, Department of physiotherapy). Planning to collaborate (need based) with ICT-Mumbai, IIT Mumbai, Mumbai University, AIIMS New Delhi, ICGEB New Delhi, IISc, Bangalore, and TIFR Mumbai.

FUTURE PLANS

- To strengthen the existing facility with latest equipment particularly in the area of proteomics and genomics.
- To Boost the national and international research collaboration
- Generation of high value patents and high impact factor publication etc.
- Promotion of research incubator between industry and MGMIHS
- Technology transfer
- Establishment MGM OMICS Research foundation
- Establishment of resource centre for biogenic multifunctional nanoparticles
- Organize Training and workshop.
